

Carbon Reduction Plan

Commitment to achieving Net Zero by 2040

Supplier Name: *BTS Holdings Limited trading as Atereo*

Prepared By: *Carl Lawrence, Resources Director*

Document Ref: *RES/P08a*

Publication Date: *July 2024*

Commitment to achieving Net Zero

Atereo is committed to achieving Net Zero emissions by 2040.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 1 April 2019 to 31 March 2020	
Additional Details relating to the Baseline Emissions calculations: None	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	32.50
Scope 2	33.10
Scope 3 (Included Sources)	52.30
Total Emissions	118

Current Emissions Reporting

Reporting Year: 1 April 2023 to 31 March 2024	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	5.37
Scope 2	21.8
Scope 3 (Included Sources)	35.8
Total Emissions	63

Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

- Halve our carbon emissions by 2030.
- Achieve NetZero by 2040.

We anticipate that our carbon emissions will fall below 59 tCO₂e by 2025, meeting our target to halve our carbon emissions five years earlier than originally forecast.

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2019/20 baseline. The carbon emission reduction achieved by these schemes equate to 55 tCO₂e, a 46% reduction against the 2019/20 baseline.

- Avoid single use products
- Increase computing virtualisation
- Encourage home working
- Switch lighting to LED
- New energy efficient lift machinery

We are in the process of:

- Upgrade existing gas boilers to improve efficiency

In the future we hope to implement further measures such as:

- Procuring 100% sustainable electricity
- Migrating entire fleet to electric vehicles

We aim to improve the efficiency of our offices from its current Band D to Band C by 2025 and Band B by 2030.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.
