Target Publishment Date (DD/MM/YY):

20-May-25

*If you have published on more than one platform, copy the above 5 rows, insert them below this row, and input the information.*

## Instruction

The published target must mention/state clearly that the company is "Aligned with the 1.5°C climate ambition, meaning halving emissions by 2030 and Net-Zero by 2050". It is up to your own discretion if you wish to publish the steps you will be taking to achieve this target together.

## Note

- The progress needs to be half-yearly reported in e.g., a sustainability report, ensuring trend of halving emissions is followed.
- Ericsson will check in with you on your progress every half yearly or yearly, and you are expected to report back to us your status to remain aligned with the 1.5-degree climate ambition.
