

30th September 2025

2024 Climate Report: The Fenway® Group Limited

The recent, unexpected closure of the platform used to monitor and analyse our carbon footprint resulted in a partial loss of emissions and offsetting data.

In order to fulfil our SME Climate Hub commitment to report data on an annual basis, we have assembled information, as below, in order to provide as transparent-a-picture as possible.

We remain committed to a nett zero path and, indeed, have once again offset significantly more carbon than we produced, all to the best of our knowledge and on the basis of the data which we have been able to secure.

The summary is as follows:

Carbon offset (as detailed below):	8.04 tCO ₂ e
Carbon emissions (transactions) (as detailed below):	2.21 tCO ₂ e
Carbon emissions (homeworking) (as detailed below):	0.31 tCO ₂ e

We will now focus on finding a replacement platform, in addition to continuing to develop a more nuanced picture of our emissions.

Finally, in our first report, dated March 2024 and relating to 2023, we made the following statement, which we feel is appropriate for inclusion once again here:

'We originally committed to nett zero by 2050, with 2023 being our first full year of monitoring and therefore our baseline year. We have included the period from October to December 2022 within the 2023 results and would anticipate reporting by calendar year hereafter. We have been utilising offsetting while gathering our initial data, in order to mitigate emissions and footprint. Through offsetting, we have achieved a nett zero year in 2023. Our carbon avoidance through offsetting totalled 11.09 tons CO₂e. We recognise the strengths and weaknesses in our current data gathering, and therefore reporting, and will seek to refine our process. The information gathered and shared is true and accurate to the best of our knowledge.'

E&OE

Carbon Offset Record 2024:

Date of impact	Impact category	Impact type	Unit	Quantity	Impact project
23/01/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/01/2024	Carbon avoidance	Community based	tCO ₂ e	0.335	Repairing water boreholes in Eritrea
23/02/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Conserving the Amazon in Brazil
23/02/2024	Carbon avoidance	Renewable energy	tCO ₂ e	0.335	Solar power project in Morocco
23/03/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Conserving the Amazon in Brazil
23/03/2024	Carbon avoidance	Renewable energy	tCO ₂ e	0.335	Solar PV electricity generation in Indonesia
23/04/2024	Carbon avoidance	Greenhouse gas capture	tCO ₂ e	0.335	Avoiding methane emissions from landfill in Brazil
23/04/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Conserving the Amazon in Brazil
23/05/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/05/2024	Carbon avoidance	Renewable energy	tCO ₂ e	0.335	Solar power project in Morocco
23/06/2024	Carbon avoidance	Wetland restoration	tCO ₂ e	0.335	Peatland restoration and conservation in Indonesia
23/06/2024	Carbon avoidance	Greenhouse gas capture	tCO ₂ e	0.335	Avoiding methane emissions from landfill in Brazil
23/07/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/07/2024	Carbon avoidance	Community based	tCO ₂ e	0.335	Repairing water boreholes in Eritrea
23/08/2024	Carbon avoidance	Wetland restoration	tCO ₂ e	0.335	Peatland restoration and conservation in Indonesia
23/08/2024	Carbon avoidance	Renewable energy	tCO ₂ e	0.335	Solar power project in Morocco
23/09/2024	Carbon avoidance	Greenhouse gas capture	tCO ₂ e	0.335	Avoiding methane emissions from landfill in Brazil
23/09/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/10/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/10/2024	Carbon avoidance	Wetland restoration	tCO ₂ e	0.335	Peatland restoration and conservation in Indonesia
23/11/2024	Carbon avoidance	Deforestation prevention	tCO ₂ e	0.335	Protection of the Mataván forest in eastern Colombia
23/11/2024	Carbon avoidance	Wetland restoration	tCO ₂ e	0.335	Peatland restoration and conservation in Indonesia
23/12/2024	Carbon avoidance	Greenhouse gas capture	tCO ₂ e	0.335	Avoiding methane emissions from landfill in Brazil
23/12/2024	Carbon avoidance	Community based	tCO ₂ e	0.335	Repairing water boreholes in Eritrea
Total			tCO₂e	8.04
